

Guide the Sole (A Yaga Game)

You will need:

One or more players

Lightweight paper, such as tissue paper or crepe paper

Pen or pencil

Scissors

A Gate (any doorway inside a Yaga house or non-Yaga house)

Something to fan with, such as a real fan, a piece of thick cardboard, or a newspaper

How to play:

1. Draw and cut out a sole (a fish shape) using the lightweight paper. Alternatively you could draw a soul (what do you think a soul looks like?)
2. Choose a starting place a short distance away from your doorway (probably the opposite side of the room).
3. Use your chosen fan to fan your sole into the doorway.
4. If you are playing alone count how many fan beats it takes to blow your sole into the doorway, then try to beat your best (aim for the lowest number of beats).
5. If you are playing with friends start at the same time and race each other.
6. Devise new courses; try to fan your sole over, around, or under obstacles before blowing it through the doorway.
